

OCTOBER

4

*Outdoor discovery experiences for **children grades K-3** with curious minds who enjoy problem solving, recording clues, asking questions, drawing, and noting observations in their Nature Detectives field journals.*

***4-week programs
New content every month***

Nature Detectives: **Where Kids Discover the Outdoor World**

Meet a Tree

Thursdays 3:30-4:30 pm, Oct. 4, 11, 18 and 25

Registration Fee \$45, includes art supplies, Meet Rm B7

- ▶ How do trees grow? What is the role of the trunk, canopy and leaves to sustain its life and create habitat? Why do some grow leaves that change color and other trees don't?
 - ▶ Observe leaf patterns & textures by tracing & pressing leaves
 - ▶ Conduct a survey of school trees to identify species and shapes. Look for bark, leaves, needles, flowers & seed pods.
 - ▶ Use our Nature Detectives field journals to write, record evidence and draw what we see.
- ▶ **Visit** <https://naturedetectivesusa.com> for more information..
- ▶ **Contact** Janice Kelley, Lead Detective, Writer and Naturalist
(916) 965-5246 or outdoorjan@att.net
